

LIBRARY COMMITTEE REPORT

April 15, 2026

On April 1st we held a 75% off all used book sale. I am happy to announce as of April 15th that we have sold all the used books. We have a book dealer who, when we get to the point that we need to purge our used books, will come in and make us an offer. We are now able to move the shelving unit to a more prominent location in the library.

During the month of March, we received an email from Webster County Genealogical Society, and they wanted to purge their books. They want to concentrate their holdings mostly on the surrounding areas of Webster County. We have added to some of the periodicals that we already have along with adding some new ones. We also brought back some books that we didn't have. So, look for them to be out on the new bookshelf in the next couple of months.
